Effects-Based Terpene Profiles by Dr. Ethan Russo

Product Name	Primary Effect	Secondary Effect	Primary Aroma	Secondary Aroma	100% Natural	Prominent Terpene 1	Prominent Terpene 2
● Terpology Calm	Calm	Rest	Floral	Citrus	Yes	Linalool	Limonene
● Terpology Energy	Energy	Uplift	Citrus	Earthy	Yes	Alpha Pinene	Limonene
● Terpology Focus	Focus	Calm	Herbal	Earthy	Yes	Alpha Pinene	Linalool

"I DESIGNED THESE ALL-NATURAL PROFILES TO UNLOCK FUNCTIONAL AND THERAPEUTIC PRODUCT BENEFITS WITH TERPENES."

– Dr. Ethan Russo, board-certified neurologist and cannabis pioneer.

Terpology Calm

"For calmness and relaxation, linalool and limonene came to mind, and so the profile is based on the interplay between those two compounds. Limonene has a mood-elevating effect and linalool will enhance a person's ability to experience an easygoing unwind effect. This blend has a pleasant citrus and floral aroma."

– Dr. Ethan Russo

Terpology Focus

"I designed the focus blend on a foundation of mind-clearing alpha pinene and sedating linalool to create a harmonious balance between stimulation and calmness. The other components share a common thread with essential oils that help facilitate concentration. The aroma is reminiscent of eucalyptus, conifer and lavender."

– Dr. Ethan Russo

Terpology Energy

"For myself, an energizing experience is a mix of improved concentration with a bit of pizzazz. Pinene and eucalyptol create an invigorating sensation. When paired with terpenes such as limonene, the experience is a bright and balanced aroma with a significant mood elevating effect that gives me a productivity boost."

– Dr. Ethan Russo

● Terpene Flavor Profiles

Terpene Flavor Profiles utilize the extensive aromatic versatility of terpenes to create bold, trendy & functional non-cannabis inspired flavors.
